

March 18, 1976

to go to these schools would compare to the cost of operating a school right here in Lincoln, Nebraska. I think that we need to continue to work with the other four states in the Old West Regional Commission and see what position that they will take, what their attitude is and what kind of an agreement we could have. Now, we do know that many of our students that leave our state to go to a vet school never come back to Nebraska. I believe that Nebraska is going to continue to grow in the livestock interest, and we are going to need more vets. I don't think that we have enough now. I am willing to lay it over and I think that some of us ought to get together and draw up a resolution that is appropriate and reflect the comments that are made on the floor this morning. I will either go along with adopting Senator Warner's amendment or I am going to lay it over. I do not believe that we can just say let's forget it, it is no good, we do not want it. I don't think that that should be our attitude Mr. President.

PRESIDENT: The question before us is whether this matter should be laid over. Senator Burrows.

SENATOR BURROWS: I will support a lay over because we don't know the exact wording of the changes in the amendment. I would like to remind the body as they think this over until tomorrow. This legislature passed 32 to 0 the previous resolution that is on your desk. The changes are nothing but nit-picking. We are reaffirming a commitment with the resolution, and if everybody wants to get cold when they get close to the water to go in for the swim, that is the issue right here. If we are going to nit-pick a resolution apart that is really basically a commitment from the other one, I think that the body should think this over as we look at it tomorrow and study the old resolution that you passed last year 32 to 0, and give some thought as to why you are changing your minds at this point. I was at all of the ag committee hearings. If there has been secret information come to the ag committee that I have not known about I would like to have this information, and I will support the lay over until tomorrow.

PRESIDENT: The question before us is whether to lay it over. Senator Stull.

SENATOR STULL: (no response)

PRESIDENT: Senator Schmit.

SENATOR SCHMIT: Mr. President, members of the Legislature. I believe that Senator Burrows, talk about getting cold feet, I don't very often get mad on this floor but when he starts to talk about "secret information", he has access to everything that comes to my office. I have given it to the Governor, and I have given it to anyone who is interested. If he is that interested in this area, he knows that I have a file. He knows that Senator DeCamp was on this a long while before he was in this body, and if he wanted to introduce this resolution that was fine with me, he could have visited with members of the committee about it. I didn't know that he was going to introduce the
